Star Trek: Starfleet Command is a countertop-based computer game Star Wars of the fleet. It was developed by 14 East and Kwicksilver software and published by Interplay Entertainment. It was released on August 11, 1999 for Microsoft Windows. It simulates spaceship operations, ship-to-ship combat, and fleet of warfare in the Star Trek universe. The extended version was released in 2000 under the name Star Trek: Starfleet Command - Gold Edition. It includes the last patch and all the missions that have been downloaded from the official site. Gameplay gameplay consists of maneuvering your ship to get closer to enemy ships and attack them in areas where different systems and ship shields are vulnerable. It also consists of achieving the various other goals outlined in the mission assignment that are provided at the beginning of each scenario. Depending on the specific destination, this may include interaction with various ships, aliens, planetary bodies and other objects in space. Plot Although the game does not have a central campaign story mode, players can play as a member of one of the six star powers, each of which has at least one elite organization that, when joined, will cause special missions that tell different stories. Despite the unique stories, the special missions of each race contribute to the narrative of the fate of the race known as the Organians, and what their departure from the known cosmos has since caused. Admission AcceptanceAggregria ScoreAggerScoreGameRankings83% 1Review Of AssessmentScoreAllGame 2CGSP 3CGW 4Game Informer8.5/106GameFan86% John Lee reviewed the pc version of the game for Next Generation, after her four stars out of five, and said: Give us more power, Scotty, Scotty. This is one keeper. The game received favorable reviews according to a review of the aggregation site GameRankings. According to Eric Betke, starfleet team sales exceeded 350,000 copies after a year on shelves without taking into account the Gold Edition and the expansion of the neutral zone. It was Interplay's best game thanks to direct sales, above Baldu's goal. The editors of Computer Games Strategy Plus nominated the Starfleet team for the 1999 Real Time Strategy of the Year award, which was eventually awarded to Age of Empires II: The Age of Kings. They wrote that Starfleet Command avoided the curse of Star Trek and created a game with amazing depth combined with simple mechanics. In 2016, Tom's Guide entered the top ten Starfleet Command games. In 2017, PC Gamer rated Star Trek: Starfleet Command among the best Star Trek games.
